Jacklyn James first approached KCS back in 2012 to create her design idea of a Safe, Bladeless, Peeler.

Her existing business, “Kiddies Food Cutter” was looking for an Australian company who could coordinate, guide and assist with bringing to fruition her innovative and clever product idea, the “Safety Food Peeler” to align with her already popular Kiddies Food Cutter – Safety Knife.

KCS was exactly what Jacklyn was looking for, a 100% Australian Company, with inhouse design, toolmaking, manufacturing, warehousing, and distribution facilities, locally too in Victoria. KCS has now produced for Jackie over 180,000 Safety Food Peelers from High Impact Styrene (HIPS) which is 100% recyclable.

It has been a wonderful journey working with Jacklyn. Her focus, drive and enthusiasm have led her to produce an amazing product that is 100% Australian designed and 100% Australian Made & Owned. We look forward to continuing that journey now with Jacklyn as she works towards completing her vision of the past 4 years: for the Safety Food Cutter & Kiddies Food Cutter that are now both being Manufactured by KCS Plastics. Since those early days, Jacklyn has gone from strength to strength, marketing and managing her business with passion, making it the successful market leader it is today.

KCS enjoys working with and assisting Jacklyn, wherever we can, to help her achieve her dreams. We wish her continuing success with her extraordinary entrepreneurial vision and risk taking.

Regards
Kurt Schnepf
